

WETLAND RESTORATION

World Wetlands Day • 2 February 2023

Avoid:

Dredging

**Planting
invasive species**

Littering

In areas that are submerged or covered in water.

Instead:

Plant indigenous vegetation

Restore natural structure

Restore ecological integrity

Report illegal dumping

As a result, wetlands will:

**Beautify your
property**

**Control flood
water**

**Provide habitat
for wildlife**

**Improve quality
of ground water**
